
BIODYNAMIC[®] SOURCE

Horn Azomite

Product Information & Use Notes

What it is

A specialty horn preparation made with ancient volcanic ash containing a broad range of trace minerals.

When to use

- When supporting remineralization of depleted soils.
- When looking for trace-mineral support for plant growth, roots, yields, or quality.
- As a specialty preparation to consider with BD 500 XP.

Use guidance

For this specialty preparation, contact Biodynamic Source for rate, water amount, and timing before use.

Storage

Store sealed in a cool, protected place away from electric or harmful fumes.

Keep preparations sealed and protected until use. When in doubt, contact Biodynamic Source for crop, acreage, and timing guidance.
