
BIODYNAMIC[®] SOURCE

Horn Basalt

Product Information & Use Notes

What it is

A specialty horn preparation made from ground volcanic basalt rock.

When to use

- When micronutrient support is part of the soil strategy.
- When supporting nutrient uptake and soil rejuvenation.
- Commonly considered with BD 500 XP.

Use guidance

For this specialty preparation, contact Biodynamic Source for rate, water amount, and timing before use.

Storage

Store sealed in a cool, protected place away from electric or harmful fumes.

Keep preparations sealed and protected until use. When in doubt, contact Biodynamic Source for crop, acreage, and timing guidance.
