BIODYNAMIC SOURCE

Summer Horn Clay

Product Information & Use Notes

What it is

A horn clay preparation used to support the ebb and flow of plant sap and the exchange between roots and tops.

When to use

- Commonly used with BD 501 Horn Silica.
- Useful when the goal is plant form, light, quality, and above-ground expression.
- Best treated as a specialty preparation chosen for a specific spray strategy.

Use guidance

For this specialty preparation, contact Biodynamic Source for rate, water amount, and timing before use.

Storage

Store sealed in a cool, protected place away from electric or harmful fumes.

Keep preparations sealed and protected until use. When in doubt, contact Biodynamic Source for crop, acreage, and timing guidance.
