Tree Charger Kit

Product Information & Use Notes

What it is

A tree-focused kit containing BD 500 XP Horn Manure, BD 501 Horn Silica, BD Barrel Compost, and BD 508 Equisetum.

When to use

- For orchards, shelter trees, or individual trees that need support.
- When you want soil, light, compost, and horsetail support in one tree-care kit.
- When following the Tree Charger harmonizing instructions.

How to use

The full process includes tree harmonizing followed by placement of the four preparations around or on the tree. Use the complete instruction sheet for the full sequence.

Placement

- BD 500 in the north.
- BD Barrel Compost in the south.
- BD 508 in the east.
- BD 501 in the west, hung or affixed to the tree about 2 feet above the ground.

Storage

Keep the kit sealed and protected until use. Store in a cool, dark place away from electrical charges or harmful fumes.

Keep preparations sealed and protected until use. When in doubt, contact Biodynamic Source for crop, acreage, and timing guidance.
